Real students, real impact

Florence Allen, a former day-care center owner, took her prerequisite courses at local schools while working as a student nurse tech at Missouri Baptist Medical Center.

“My environment, working in the NICU and in the nursery, motivated me to go to nursing school,” says Florence. “A lot of my peers were students attending Goldfarb.”

Now in her 50s and an Upper Division BSN student, Florence proves it’s never too late to follow your passion. She’s grateful for the tuition discount and additional financial help she’s received.

“The BJC 20% discount has helped me tremendously with my school tuition at Goldfarb,” she says. “BJC has helped me get through nursing school, and after passing classes with good grades, you are awarded additional yearly tuition reimbursement! I’ve also received scholarships that have truly been a blessing.”

Michelle Long, a current Weekend/Evening Option (WEO) student and unit secretary at Barnes-Jewish Hospital, says the tuition discount heavily influenced her decision. “The 20% discount is very helpful for my situation and family,” Michelle explains.

Corinne Crandell, a senior medical assistant at MBMC, said that learning about the discount solidified her decision to enroll. “I was accepted into the program but still on the fence,” she shares. “The discount secured my decision to attend Goldfarb instead of waiting.”
